It is hereby clarified that the liability of the Company according to this extension shall apply on the condition that the basic insurance policy and this extension were valid at the time of occurrence of the insurance event, as defined in this extension.

### 1. Definitions

In this extension

#### 1.1. Accident:

Bodily harm caused by the use of physical force only, as a result of a sudden, single and unexpected event, caused directly by an external, visible cause that constitutes the sole direct and immediate reason for the occurrence of the insurance event. **To eliminate any doubt, verbal violence and/or mental stress and/or stroke and/or the accumulation of minor repeated injuries over a period that causes disability shall not be considered as an "accident."**

#### 1.2. Loss of limbs:

### 2. Obligation of the Insurer

If the Insured incurs, in Israel during the Insurance Period, death or loss of limbs directly due to an accident, the following insurance compensation will be paid:

**2.1. Death of the Insured** – In the case of death of the Insured within 6 months of the date of the accident, the beneficiaries, and if no beneficiaries are named – the legal heirs of the Insured or the managers of his/her estate according to the Inheritance Order and/or an order to carry out a will, will be paid insurance compensation according to the total stated in the Limits of Liability Table of the policy, **and on the condition that the Insured is over (and including) 18 years** and up to (and including) 75 years of age on the day of occurrence of the accident.

Loss of Limb/s** – In the case that the Insured, above the age of 18 and up to (and including) age 75 at the time of the accident, incurs the loss of an limb/s (as defined in Paragraph 1.2 above), he/she will be entitled to the amount specified in the Limits of Liability Table of the policy. For example: In the case that the Insured incurs the loss of a leg (above the knee) **and the maximum insurance amount specified is \$10,000, the Insured will receive 60% x 10,000 = \$6000.**

An Insured who at the time of occurrence of the insurance event has not yet reached the age of 18 years will be entitled to half the compensation specified in the Limits of Liability Table of the policy.

Existing disability of the Insured prior to the accident event (according to medical documentation) shall be deducted according to the rate of the existing disability from the rate of loss of the limb for which the Insured is entitled to compensation according to this section.

Limb		Limb	Right	Left
One eye	30%	Upper arm	75%	65%
Both eyes	100%	Forearm	65%	55%
One ear	20%	Palm	60%	50%
Both ears	50%	Thumb	25%	20%
Leg (above the knee)	60%	Index finger	15%	12%
Thigh	70%	Middle finger	12%	10%
Foot	50%	Ring finger	10%	8%
Big toe	5%	Baby finger	12%	10%
Other toe	3%	Knuckle	1/3 of the above %	1/3 of the above %

The percentages listed in the table above refer to 100% loss of the said limb.

**A left limb of a left-handed person will be calculated as a right limb according to the above table.**

Limbs that are not listed in the above table – In the case of loss of any limb/s (as defined in Paragraph 1.2 above), the amount of compensation will be determined medically by a medical expert in the field and will be paid as a percentage of the maximum insurance amount specified in the Limits of Liability Table of the policy. For example: if the Insured loses an limb as defined in Paragraph 1.2 above, the limb is not listed in the table above, the doctor determines that this is a 10% disability, and the maximum insurance amount listed is \$10,000, the Insured will in this case receive:  $10\% \times 10,000 = \$1,000$ .

**2.3. The total maximum liability of the Insurer under this extension shall not exceed \$10,000.**
